## How to Update Accessory Firmware

Step 1: Turn on the accessory that needs updating

Step 2: Launch the Accessory Updater

- There are four ways to launch the Accessory Updater:
- 1) The Beltone Direct Line Accessory Updater

Beltone Direct Line Access...

2) From the Selection Screen

Connected		Left E	ar All Families 🛛
All Pavonites	Family	Model	S *
	First 17	FI1763-DRUW	RIE
	First 17	FI1763-DRPW	RIE
	First 17	FI1763-DRW	RIE

3) From the Menu Bar in any screen

ile Edit View	Instrument Fitting Help			
Audiogram	Connect Read	Ctrl+T	Solutions -	
Right Ear FI176	Feedback Calibration Ear to Ear Communication Restore Instruments	Ctrl+F	Connected	
80	Manage Accessories	•	Direct Line Accessories	
60 50	Mute Right	Ctrl+R Ctrl+L	Bluetooth Smart Devices Accessory Updater	

#### 4) From the Fitting Screen when in an accessory program tab

lone	AutoPhone:None	TV Link/Person	al Audio Lir	nk:Audio stream
Manage	Accessories 🔹			
Direct Line Accessories		hent	s 🦷	All 250
B	luetooth Smart Devices			
A	ccessory Updater			18

#### Step 3: Connect the accessory to the computer via a USB cable

# **Step 4:** The Accessory Updater will connect to the accessory showing the update

Serial:	1179609427	
Version:	1.2 <b>ite Available</b> on: 1.4	Update
	Version:	Version: 1.2 Update Available Version: 1.4

### Step 5: Click on the update button to install the update

Accessory Updater

 Accessory:
 Personal Audio Link.

 Serial:
 1179609427

 Version:
 1.4

 Image: Construction of the series of

You can now pair the accessory to your hearing aids (you **do not** have to power the accessory off then back on). If the accessory was already paired to hearing aids, they **do not** have to be repaired.

If you're not sure if an accessory is up to date, just run through Steps 1-4. If an accessory is up to date, you will see this message window for Step 4:
